### **Policy 3.12**

#### **Kitebrook Preparatory Curriculum Policy**

**(Including boarding, day and EYFS pupils)**

<b>Updated:</b>	30.08.23
<b>Author:</b>	BRS
<b>Next Review date:</b>	01.09.24

## **1. Curriculum Objectives**

1.1 To encourage every pupil in the school to make the most of his/her intellectual potential by:

- creating rigorous learning experiences and promoting high standards of achievement and equal opportunities for all pupils of all abilities in our school, irrespective of their gender, background, race or religious belief, including those with an Education, Health and Care Plan (EHCP)
- creating lively and stimulating environments which enhance their powers of learning and reasoning
- delivering a broad curriculum in order to provide intellectual, moral, spiritual, emotional, cultural and physical education of the highest quality
- promoting a positive approach to learning and equipping the pupils with the skills necessary to become lifelong independent learners
- offering expert and rigorous teaching to all pupils regardless of their academic level
- supporting those with learning difficulties and challenging and stretching the more able
- ensuring that pupils are equipped with appropriate study skills to be able to evaluate, reflect on and manage their own learning.

1.2 In addition, the curriculum aims to develop individuals by:

- providing experiences of a wide range of age appropriate activities (Art, DT, Music, Drama, Dance, Sport etc.) so that pupils can discover an interest and talent outside the classroom
- encouraging every pupil to be thoughtful, sympathetic and tolerant of others whilst developing the self-confidence to express and defend ideas and opinions
- enabling pupils to develop a respect for themselves and high self-esteem and to be able to live and work cooperatively with others
- developing in pupils a respect for other people, their property and their environment
- helping pupils to become physically fit and regard sport and physical exercise as an important part of a healthy and well-balanced life.

1.3 Implicit in these curricular objectives are the aims and objectives of Every Child Matters:

- Be healthy
- Stay safe
- Enjoy and achieve
- Make a positive contribution
- Achieve economic well-being

1.4 The curriculum plans and schemes of work take into account the ages, aptitudes and needs of all pupils, including those pupils with an EHC plan, and do not undermine the fundamental British values of democracy, the rule of law, individual liberty, and mutual respect and tolerance of those with different faiths and beliefs.

## **2. Specific curriculum regulatory matters**

2.1 The school provides full-time supervised education for pupils of compulsory school age (construed in accordance with Section 8 of the Education Act 1996), which gives pupils experience in linguistic, mathematical, scientific, technological, human and social, physical, aesthetic and creative education.

2.2 Lessons are well planned, enabling pupils to acquire speaking, listening, literacy and numeracy skills at a pace appropriate to their needs.

2.3 The language of instruction (written and spoken) in all lessons is English. Where pupils do not have English as their first language, appropriate help and guidance is given in accordance with guidelines provided in the schools EAL policy which can be found on the website.

2.4 A programme of personal, social, health (including physical and mental health awareness) and economic education (PSHEE) is provided for all pupils. This programme reflects the school's aim and ethos; and encourages respect for other people, paying particular regard to the protected characteristics set out in the 2010 Equality Act which are:

- Age
- Disability
- Gender reassignment
- Marriage and civil partnership
- Pregnancy and maternity
- Race
- Religion or belief
- Sex
- Sexual orientation

2.5 Pupils are prepared for a future beyond school, at their senior school and beyond, and thus are given age-appropriate careers guidance, in a number of ways. This guidance is presented in an impartial manner, usually through the PSHEE/Citizenship curriculum, enabling pupils to begin to make informed choices about a broad range of career options and helping to encourage them to fulfil their potential.

2.6 Where there are pupils below compulsory school age, there is a programme of activities that is appropriate to their educational needs in relation to personal, social, emotional and physical development and communication and language skills.

2.7 Pupils are encouraged and expected to learn and make good progress; they are given opportunities to facilitate this via the curriculum provided. This is monitored departmentally, by the Deputy Head, the SENDCO by use of standardised tests and via reports (monitored by class teachers) and sent to parents at regular intervals (see below). For further information, please refer to the Assessment Policy.

2.8 The curriculum is designed to enable pupils to develop individual talents and interests and to help to prepare them for opportunities, responsibilities and experiences of life in British society. The curriculum promotes the fundamental British Values of Democracy, the Rule of Law, Individual Liberty and Mutual Respect.

2.9 The curriculum contains subject matter appropriate for the ages and aptitudes of pupils, including those with specific learning difficulties and any with an EHC plan. Where appropriate, the curriculum in the EYFS follows the learning and development requirements set out in the EYFS Statutory Framework, comprising the seven areas of learning and development, the educational programmes, the early learning goals and the assessment requirements.

2.10 Where a pupil has an EHC plan, an Individual Education Plan (IEP) will be created to ensure that identified needs are met in accordance with the Local Authority guidelines. Please see the Learning Support Policy for further information.

2.11 The school enjoys a substantial reputation as an academic institution. We are not only concerned with scholarships or obvious awards, but we remain keen to stretch pupils as far as they can comfortably manage, but at the same time accept that making mistakes is part of the learning process.

### **3. Areas of experience**

3.1 The delivery of the curriculum will enable pupils to develop skills and make progress in the following key areas of experience:

#### Linguistic

This area is concerned with developing pupils' communication skills and increasing their command of language through listening, speaking, reading and writing. There are lessons in written and spoken English and these linguistic skills are also developed through the delivery of other subjects in the curriculum

#### Mathematical

Pupils are helped to make calculations, to understand and appreciate relationships and patterns in number and space and to develop their capacity to think logically and express themselves clearly. Their knowledge and understanding of mathematics is developed in a variety of ways, including practical activity, exploration and discussion as well as an emphasis on problem-solving.

#### Scientific

Pupils have the opportunity to increase their knowledge and understanding of nature, materials and forces and whilst developing the skills associated with science as a process of enquiry: for example, observing, forming hypotheses, conducting experiments and recording their findings.

#### Technological

Technological skills are developed through the use of Information and Communication technology (ICT) as well as Design Technology. Pupils have the opportunity to plan and develop their ideas, work with a variety of tools, equipment and products to produce an end product with which they should feel proud. They will have an opportunity to evaluate what they have done and the process behind it.

#### Human and social

Through the delivery of subjects such as History and Geography, pupils will have an opportunity to learn about and reflect on people and their environment, and how human action, now and in the past, has influenced events and conditions.

#### Physical

Through the delivery of regular sporting opportunities and timetabled Physical Education/Games, pupils develop physical control and coordination as well as their tactical skills. A key part of the process is self-evaluation and reflecting on how performance could be improved. Pupils will also gain a working knowledge and understanding of the importance of health and this will be reinforced through the delivery of RHE/RSE. In accordance with the Equality Act 2010, both boys and girls will be afforded equal sporting opportunities.

#### Aesthetic and creative

Through the delivery of art, music and drama, pupils have the opportunity to be creative and make things as well as having the opportunity to evaluate their work in order to make progress.

#### Spiritual, Moral, Social and Cultural (SMSC)

SMSC development may be delivered through Religious Studies lessons or through other curricular areas.

3.2 For further information on any of the above, please refer to individual department policies/handbooks and supporting schemes of work.

### **4. Pupils' Achievement and Personal Development**

4.1 As with all areas of school life, the Curriculum is designed to promote and facilitate pupils' achievement and personal development. Individual departmental policies comment on how the following are met:

A1 – Exam results and change in attainment over time
A2 – Knowledge, skills and understanding
A3 – Communication
A4 – Numeracy
A5 – ICT
A6 – Study Skills
A7 – Academic and other achievements
A8 – Attitudes towards learning
P1 – Self-understanding
P2 – Decision making
P3 – Spiritual understanding
P4 – Moral understanding and responsibility for own behaviour
P5 – Social development and collaboration
P6 – Contribution to others, the school and the community
P7 – Respecting diversity and cultural understanding
P8 – Staying safe and keeping healthy

## **5. Covid-19**

5.1 Please note that at the current time there may be greater flexibility within the curriculum. Where pupils may have missed out during the lockdown, the school reserves the right to make adjustments to the curriculum based on assessment of pupils' learning and progress, with a view to addressing gaps in knowledge and skills.
